Mr. Dick Whittington, P.E., Regional Administrator
U.S. Environmental Protection Agency
Region VI
1201 Elm Street
Dallas, Texas 75270

Dear Mr. Whittington:

Re: Marshall Road Dump Site

TXD 980745616

The Marshall Road Dump, located at the intersection of Parish and Marshall Roads, near Crosby, Texas was submitted as a CERCLA candidate site in December, 1981.

The site consists of approximately 350 drums containing waste, many of them corroded and leaking. A fact sheet concerning the site is attached.

As of this date, Velsicol Chemical Company, has removed approximately 40 drums containing filters which had been used in the manufacture of pesticides by Velsicol. No other generators of the wastes have been identified.

At this time, we request that Region VI consider this site for an emergency planned removal action under CERCLA. Coordination of this matter should be handled through Mr. Gary D. Schroeder, Chief, Solid Waste and Spill Response Section, Enforcement and Field Operations Division at Area Code 512/475-6371.

Sincerely yours,

A handwritten signature in cursive script that reads "Harvey Davis".

Harvey Davis
Executive Director
